J. I. JAMES, Superintendent
EAGLE PASS, TEXAS

To the Class of 1954:

This annual is evidence that you have added another important chronicle to the history of the Eagle Pass High School. In it you have left a record of campus activities for the guidance of the classes that will follow. By so doing you have strengthened our many beautiful traditions and have set them on a secure road to permanency.

This publication is most appropriate and timely, this being the 100th year of public school education in Texas. Our early sponsors were chivalrous crusaders for the education of youth. Now, you, being the sons and daughters of these fine people, must also be champions for the cause of education.

As one of our great statesmen declared at the Columbia University Bicentennial the other day: "Ultimately, not by ideology or force of arms, but by sheer force of moral and intellectual freedom we will liberate mankind."

Sincerely yours,

J. I. James

EAGLE PASS, TEXAS

To the Students and Graduates of 1954:

The most hopeful situation today, as regards international relationship, in a chaotic world, is the Pan-American movement. The countries of the Americas are forging a bond of friendship with each other which bids to distinguish our hemisphere as the only place on earth where no country is at war with any of its neighbors. Students of Eagle Pass High School have their part to play in this program of sympathetic understanding and friendship among Americans.

It is our prayerful hope that in utilizing your every educational opportunity, you may be privileged to live and work in a world of Pan-American ideals, where clasped hands and not mailed fists control our destinies. In your efforts to give to the world the best that you can, remember this:

"There is a destiny that makes us brothers;
None goes his way alone;
All that you send into the lives of others
Comes back into your own."

Sincerely,

C. A. Landrum

Congratulations to the Graduating Class of '54—at Eagle Pass High School. May your achievements during the past four years, in all you have undertaken, serve as an inspiration to those who follow in your wake.

Many of you will go on to a College or University—and many will enter a new world—the Business World, but whatever the goal you may set for yourselves, just remember that; *this is it!* You are on the threshold of the beginning and some of you—tho' not any we hope, will fall by the wayside; but those of you who have the foresight plus the initiative can and will succeed, and in order to do just that, it would pay you to think awhile on two expressions. We should like to borrow one from our friends in Brooklyn who say and we quote: "You get Nuttin' fer Nuttin!"—and the second one from a literary giant of the past Voltaire, who had this to say, quote: "I have yet to see a man climb the ladder of success, with his hands in his pockets!" unquote.

Congratulations again, and May God Bless and Keep You.
